“I believe there are several contributing factors as to why we were able to achieve 6 years without a recordable accident here at the terminal.

I think the first is the way both D&C and Shell stress safety to us and keep us informed when safety issues arise. This is invaluable communication that is taken and incorporated in our daily activities. Another is safety forums, classes, etc...

Again this is valuable information that we can use to keep the work environment safe not only for those of us that work here day to day but also outside contractors that work here on a as needed basis.

The last factor I believe is the way we look out for one another. I'm confident in everyone's ability to perform the work and to perform in a safe manner and this goes back to the support we get from D&C and Shell alike.”

- John Latino, Warehouseman, Harvey Terminal
